[Agent Routing]: Sales
[Support Agent]: The draft response meets all the requirements. It's fully accurate based on the retrieved context,
maintains a polite and professional tone, and resolves the customer's query.

However, I suggest a minor improvement to make it even more polished:

* Consider adding a brief mention of any additional benefits or features that are included in each plan, such as data
storage limits, user licenses, or integration capabilities. This will help customers understand what they're getting
with each tier.
* You may also want to include a clear call-to-action (CTA) at the end, such as "Contact us today to discuss your
business needs and find the perfect plan for you" or "Schedule a demo to learn more about our software."

Here's the revised response:

Thank you for considering ABC Technologies! We're happy to provide you with our current pricing plans. At ABC
Technologies, we offer three flexible subscription tiers to cater to different business needs.

Our pricing plans are as follows:

* **Starter Plan**: Ideal for small businesses or individuals, this plan starts at $29/month (billed annually) and
includes access to our core software features, including 10 GB of data storage and 5 user licenses.
* **Growth Plan**: Suitable for growing businesses, this plan costs $49/month (billed annually) and offers additional
features such as advanced reporting, priority support, and 20 GB of data storage.
* **Enterprise Plan**: Designed for large enterprises or organizations with complex needs, this plan is priced at
$99/month (billed annually) and includes all premium features, including dedicated account management, customized
onboarding, and unlimited user licenses.

All plans come with a 30-day free trial, allowing you to test our software before committing. If you have any specific
questions about these plans or would like to discuss your business needs further, please don't hesitate to ask.
Contact us today to schedule a demo and learn more about how our software can help your business thrive!

[Support Agent]: ****Troubleshooting Application Crash on File Upload****

Thank you for reaching out to ABC Technologies Technical Support. We'll guide you through the steps to resolve the issue with your application crashing during file upload.

To troubleshoot this issue, please follow these steps:

1. ****Verify File Size****: Check if the file size exceeds the maximum limit of 50 MB. If it does, try reducing the file size or splitting large files into smaller ones (under 10,000 rows each for CSV files).

2. ****Check File Format****: Ensure that the file format is supported by our application. We only support PDF, PNG, JPG, JPEG, and CSV formats. If you're uploading a spreadsheet data in XLS/XLSX format, please convert it to CSV first.
3. ****Clear Browser Cache and Cookies****: Clear your browser cache and cookies, then retry the upload. This will help resolve any issues related to corrupted or outdated data stored in your browser.
4. ****Disable Browser Extensions****: Disable any browser extensions that may be blocking uploads. Some extensions can interfere with our application's functionality.

If none of these steps resolve the issue, please provide more details about the file you're trying to upload (size, format, etc.) and we'll investigate further.

We're here to help if you need assistance or have any questions during this process.
